

2021-22 Course Assignments At-a-Glance

As mentioned in the previous section, students in different grade levels often share courses. This can be a great help to those who are homeschooling several students and for small schools that can only afford a few teachers. Here is a table that shows which grades will share courses this year. It also gives you a birds'-eye view of how courses progress. If you are a returning member, note that there have been a few changes. In High School, "graded" is used to show that the courses for each grade contain some different books, which increase in difficulty, but you could still combine your high school students using the books of your choice.
